- Collaborating with cross-functional teams to optimize data- driven processes.

DATA ANALYST INTERN

GAMAKA INTELLECTUAL MACHINES
01/2025 – 09/2025 | Pune,India

- Examined datasets containing **3,000–8,000 entries** to identify trends for operational reporting.
- Built Power BI dashboards for weekly reviews and KPI tracking.
- Utilized SQL for extracting, filtering, and organizing structured data.
- Automated data-cleaning tasks using Python, reducing manual effort by **20–25%**.

EDUCATION

Electronics and Telecommunication Engineering
TSSM BSCOER, Narhe, Pune.
12/2021 – 06/2025
8.02 CGPA

SKILLS

- Python(Pandas,Numpy,AI)
- SQL (MySQL,AI)
- Excel (Advanced: Pivot Tables, VLOOKUP, Dashboards,AI)
- Power BI (DAX, Data Modeling,AI)
- ETL Processes
- Data Cleaning & Transformation
- Data Visualization
- Reporting & Analytics
- Data Modeling

PROJECTS

End-to-End Cricket Data Analytics Project (Python, Web Scraping, Power BI)

- Collected **10,000+ cricket records** using BeautifulSoup and Pandas.
- Designed KPIs for batting and bowling performance, improving insight precision by **40%**.
- Built an interactive dashboard that reduced analysis time by **60%**.

Weather Data Analysis using Open Weather Map API,Python, Excel & Power BI

- Gathered **2,000+ weather records** via the OpenWeatherMap API.
- Automated data extraction, cutting manual collection time by **80%**.
- Developed Power BI visuals tracking multiple weather indicators

End-to-End FP&A Dashboard using Power BI & Python

- Automated Actuals, Budget, and Forecast data using **Python**.
- Created **DAX** measures for **YTD** values, variance, and margin KPIs.
- Delivered dynamic BI visuals supporting financial decision-making.

Global E-Commerce Analytics Dashboard (API + SQL + Python)

- Pulled and processed **10,000+ e-commerce records** using API requests and SQL queries.
- Reduced analysis time by **50%** through automated data workflows.
- Built dashboards highlighting sales, customer metrics, and business trends.
